Attention: Mr. Tim Mousseau,  
Director of Public Works

**Lakeshore Roads Needs Study 2003 Update  
Issued December 2003**

Dear Sir:

We are pleased to submit 15 copies of the Lakeshore Roads Needs Study 2003 Update issued December 2003.

The 2003 update reflects the improvements to the Town's roads and bridges undertaken since the completion of the Roads Needs Study in 2000.

The updated section of the report includes new tables showing the deficiencies and needs as of the end of 2003.

The original 2000 report is also included after the update.

Using the 2000 unit prices, the Town's needs have been reduced as noted below:

	2000	2003
Roads	\$18,669,880	\$13,733,530
Bridges and Culverts	\$3,349,000	\$1,083,000
Railway Crossings	\$1,425,000	\$1,425,000
<b>Total</b>	<b>\$23,443,880</b>	<b>\$16,241,530</b>

You should note that construction prices have increased since 2000 by approximately 15%. A 15% increase should be added to assess the Town's needs for 2004.

We have not added any new roads to the Town's system. This can be done at your direction. It is expected that these new roads will not add any costs to the Town's needs since they are new development roads assumed by the Town as part of Development Agreements and are in good condition.

Yours sincerely,
